2020 - In the midst of a pandemic, I attend the virtual Virginia Aerospace and Technology Scholars, which has completely driven me to study space in the future.

2015 - I have determined the walrus is my favorite animal.

2011 - The year I bought Minecraft. My favorite video game and constant source of joy, as well as my first real introduction to design.

2009 - My first time acting. Theatre inspired in me a love of playing characters and helped build me into an excellent public speaker.

2008 - Star Wars inspired a love of Science-Fiction, robotics, and space.

2008 - Lord of the Rings heavily influenced my love of fantasy and storytelling.

2019 - Although I only recently started playing, the accordion has completely changed my life and has helped me cope with challenges.

2019 - I attended Virginia Space Coast Scholars, which rekindled my love of space and has moved me towards studying aerospace.

2017 - I join 1086 Blue Cheese, my robotics team. It has given me some of the best experiences and skills I have.

2016 - Played Dungeons and Dragons for the first time. The game has helped to make me a better person and build the best friendships I have ever had.

D. Roosevelt, then by jet transport to Rio, where we transferred to Air Force One for the flight to Washington.

I'll just conclude by saying that I feel confident that the Agreement of Tistan will triumph. Thank you.

THE PRESIDENT: Well done, Dr. Lubin. On behalf of the American people, I thank all of you who took part in Operation Alpha.

Then the President introduced the foreign physicists: Cheng of China, Polyakov of Russia, Marlow-Hyde of Britain and Martel of France.

Cheng spoke for them all as he said, "We of Alpha will not help ignite the fire storm that would consume the earth. I am proud to belong to a society that is determined not to rest until the last nuclear bomb has been banished."

THE PRESIDENT: When the new Congress meets in January, I intend to send the Tristan text to the Senate and ask that body for a vote of confidence in the objectives of Alpha. This morning, via conference call, I talked with the congressional leaders of both parties and their initial response was encouraging.

I wish to apologize to members of my official family who were not taken into my confidence. Peter Deskowicz knew of Alpha because it was apparent that once Stephen Greer disappeared the FBI would be forced to investigate. FBI agents were pursuing a nonexistent case. I tender them my thanks and my apologies.

And now, for the future. I can already hear the guns of opposition booming. There will be those who will insist that national security will be shattered. To them I say: These grotesque arsenals of thermonuclear destruction provide only the security of a man who protects his property by stacking dynamite in his basement.

Late last night I called Governor Wolcott in Springfield. I did not have the wording of the agreement, but I did outline the objectives of Alpha. He promised to let me know what he thought. He called me back this morning and said that while he could not commit his party, he personally would support the spirit of the
